MARKER REGULATIONS

Effective September 15th, 2023

Only one marker is allowed per grave.

Standard flat marker requirements (single) 30" x 18" x 4" with LMP edge and sawn sides.

Standard flat marker requirements (double) 48" x 18" x 4" with LMP edge and sawn sides.

Nonstandard flat marker sizes, lawn crypts, ledgers, statues, benches, and private cremation estates will be allowed at the discretion of the cemetery and must be approved by the cemetery prior to installation.

Grave markers provided by the Veteran's Administration will be the only new markers set in concrete, and are required to have a 4" wide border on all sides, with a 6" thickness with steel reinforcement.

Monument marker requirements (single) – Concrete pads must be 6" in thickness and allow for a minimum 3" border on all sides of the monument base.

Concrete pad - Max length of 40" and max width of 22"

Monument base – Max length 34" max width 16"

Monument die – Needs to fit within monument base measurements. No height, shape, design or finish restrictions.

Monument marker requirements (double) – Concrete pads must be 6" in thickness and allow for a minimum 3" border on all sides of the monument base.

Concrete pad - Max length of 70" and max width of 22"

Monument base – Max length 60" max width 16"

Monument die – Needs to fit within monument base measurements. No height, shape, design or finish restrictions.

Up to 6 cemetery approved vases may be placed on a grave in addition to the marker.

Forest View Cemetery is not responsible for lost or stolen vases.

Always check with the cemetery prior to purchase of a grave marker or verify current specifications.
